CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 26

Number 1 First Quarter ..... pp 1–80
Number 2 Second Quarter ..... pp 81–176
Number 3 Third Quarter ..... pp 177–276
Number 4 Fourth Quarter ..... pp 277–364

A

Abdelhamid, A.N.: Analysis of Rotating Stall in Vaneless Diffusers of Centrifugal Compressors 118
Abdelhamid, A.N. and J. Bertrand: Distinction Between Two Types of Self-Excited Gas Oscillations in Vaneless Radial Diffusers 105
Aerial Spray, With Reference to the Maximum Size and Configuration of — A Streamtube Concept for Lift: R.H. Wickens 134
AGARD Announcements 55, 148, 242, 340
Aircraft Flutter Tests, Comparison of Two Methods for the Reduction of Free Decaying Data in : B.H.K. Lee and D.J. Jones .. 322
Aircraft Wake Vortices, A Technique for Simulating the Motion and Ground Effect of: R.H. Wickens 129
Air Cushion Vehicle Over Water, An Experiment on the Heave Oscillation of a Light: H.S. Fowler 92
Airline Flight Departure Procedures — Choosing Between Noise Abatement, Minimum Fuel Consumption and Minimum Cost: R.E. Jones 181
Analysis of Rotating Stall in Vaneless Diffusers of Centrifugal Compressors: A.N. Abdelhamid 118
Annual General Meeting Report 261
Annual Report of the Council, 1979/1980 ... 167
Application of Fracture Mechanics in Designing Lower Wing Skin of Transport Aircraft: V.G. Nanduri 235
Augmentor Wing, The Effect of Jet Non-Uniformity on the Lift of an: V.Q. Tang and J. Tinkler 312
Avionics Systems on the Commercial Airplanes of the 1980's, Certification of: J.R. Combley 83

B

Ben-Dor, Gabi: A Reconsideration of the Shock Polar Solution of a Pseudo-Steady Single-Mach Reflection 98
Benham, P.E., Productivity — The Challenge of Aircraft and Engine Maintenance 201
Bertrand, J. and A.N. Abdelhamid: Distinction Between Two Types of Self-Excited Gas Oscillations in Vaneless Radial Diffusers 105
Book Review:
Fall of an Arrow: Murray Peden 57
Brown, K.E.: 12 GHz Broadcast-Satellite Planning in Region 2 288

C

Canadian Aerospace Abstracts .. 52, 145, 239, 337
CASI Log 61, 151, 245, 343

Centrifugal Compressors, Analysis of Rotating Stall in Vaneless Diffusers of: A.N. Abdelhamid 118
Certification of Avionics Systems on the Commercial Airplanes of the 1980's: J.R. Combley 83
Chan, Y.Y., D.L. Mundie and D.J. Jones: Transonic Axisymmetric Bodies with Minimal Wave Drag 231
Combley, J.R.: Certification of Avionics Systems on the Commercial Airplanes of the 1980's 83
Comparison of Two Methods for the Reduction of Free Decaying Data in Aircraft Flutter Tests: B.H.K. Lee and D.J. Jones . 322
Cost Effective Engine Health Monitoring System for On-Board Use on Hovercraft, A: D.J. Karanjia and H.I.H. Saravanamuttoo 3
CRV7 Weapon System, The — An Example of Weapon Development in Canada : H.P. Nielsen 10

D

Designing Lower Wing Skin of Transport Aircraft, Application of Fracture Mechanics in: V.G. Nanduri 235
Designing Satellite Microwave Filters Using Graphite Fibre Epoxy Composite: C.K. Mok 298
Distinction Between Two Types of Self-Excited Gas Oscillations in Vaneless Radial Diffusers: A.N. Abdelhamid and J. Bertrand 105
Dixit, C.S. and T.S. Patel: Optimum Selection of Main Parameters for the Reverse Design of a Supersonic Military Aircraft .. 218

E

Effect of Jet Non-Uniformity on the Lift of an Augmentor Wing, The: V.Q. Tang and J. Tinkler 312
Evaluation of Large Space Platforms, An: David Tong 279
Experiment on the Heave Oscillation of a Light Air Cushion Vehicle Over Water, An: H.S. Fowler 92

F

Flight Experiment, A — Pilot Reaction to Attitude Gyro Failure: R.L. Newman and D.L. Quam 303
Fowler, H.S.: An Experiment on the Heave Oscillation of a Light Air Cushion Vehicle Over Water 92

G

Goldman, R.G.: Jet Flap Impingement Noise from a Full-Scale STOL EBF Engine-Wing System 28
Graphite Fibre Epoxy Composite, Designing Satellite Microwave Filters Using: C.K. Mok 298

H

Hovercraft, A Cost Effective Engine Health Monitoring System for On-Board Use on: D.J. Karanjia and H.I.H. Saravanamuttoo 3

J

Jet Flap Impingement Noise from a Full-Scale STOL EBF Engine-Wing System: R.G. Goldman 28
Jones, D.J., Y.Y. Chan and D.L. Mundie: Transonic Axisymmetric Bodies with Minimal Wave Drag 231
Jones, D.J. and B.H.K. Lee: Comparison of Two Methods for the Reduction of Free Decaying Data in Aircraft Flutter Tests... 322
Jones, R.E.: Airline Flight Departure Procedures — Choosing Between Noise Abatement, Minimum Fuel Consumption and Minimum Cost 181

K

Karanjia, D.J. and H.I.H. Saravanamuttoo: A Cost Effective Engine Health Monitoring System for On-Board Use on Hovercraft 3

L

Lee, B.H.K. and D.J. Jones: Comparison of Two Methods for the Reduction of Free Decaying Data in Aircraft Flutter Tests... 322

M

MacNaughton, J.D.F.: The President's Message 179
Maintenance, The Challenge of Aircraft and Engine— Productivity: P.E. Benham 201
Michas, R.D.: Pilot-Static Errors and Calibrations 20
Minimal Wave Drag, Transonic Axisymmetric Bodies with: Y.Y. Chan, D.L. Mundie and D.J. Jones 231
Mok, C.K.: Designing Satellite Microwave Filters Using Graphite Fibre Epoxy Composite 298
Mundie, D.L., Y.Y. Chan and D.J. Jones: Transonic Axisymmetric Bodies with Minimal Wave Drag 231

N

Nanduri, V.G.: Application of Fracture Mechanics in Designing Lower Wing Skin of Transport Aircraft 235
Newman, R.L. and D.L. Quam: Pilot Reaction to Attitude Gyro Failure — A Flight Experiment 303
Nielsen, H.P.: The CRV7 Weapon System — An Example of Weapon Development in Canada 10

O

Optimum Selection of Main Parameters for the Reverse Design of a Supersonic Military Aircraft: T.S. Patel and C.S. Dixit 218

P

Patel, T.S. and C.S. Dixit: Optimum Selection of Main Parameters for the Reverse Design of a Supersonic Military Aircraft .. 218
Pilot Reaction to Attitude Gyro Failure — A Flight Experiment: R.L. Newman and D.L. Quam 303
Pitot-Static System Errors and Calibrations: R.D. Michas 20
President's Message, The: J.D.F. MacNaughton 179
Procedures, Airline Flight Departure — Choosing Between Noise Abatement, Minimum Fuel Consumption and Minimum Cost : R.E. Jones 181
Productivity — The Challenge of Aircraft and Engine Maintenance: P.E. Benham .. 201

Q

Quam, D.L. and R.L. Newman: Pilot Reaction to Attitude Gyro Failure — A Flight Experiment 303

R

Reconsideration of the Shock Polar Solution of a Pseudo-Steady Single-Mach Reflection, A: Gabi Ben-Dor 98
Reduction of Aerodynamic Drag of External Spray Booms and Nozzles Used on DC-6 Aircraft: R.H. Wickens..... 46
Reverse Design of a Supersonic Military Aircraft, Optimum Selection of Main Parameters for the: T.S. Patel and C.S. Dixit 218
Ruppe, J.P.: Today and the Future in Aircraft Wheel and Brake Development 209

S

Saravanamuttoo, H.I.H. and D.J. Karanjia: A Cost Effective Engine Health Monitoring System for On-Board Use on Hovercraft 3
Secretary's Letter 61, 151, 245
Shock Polar Solution of a Pseudo-Steady Single-Mach Reflection, A Reconsideration of the: Gabi Ben-Dor 98
Space Platforms, An Evaluation of Large: David Tong..... 279
STOL EBF Engine-Wing System, Jet Flap Impingement Noise from a Full-Scale: R.G. Goldman 28
Streamtube Concept for Lift, A — With Reference to the Maximum Size and Configuration of Aerial Spray: R.H. Wickens . 134

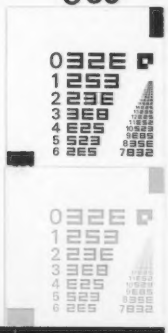
T

Tang, V.Q. and J. Tinkler: The Effect of Jet Non-Uniformity on the Lift of an Augmentor Wing 312
Technique for Simulating the Motion and Ground Effect of Aircraft Wake Vortices, A: R.H. Wickens 129
Tinkler, J. and V.Q. Tang: The Effect of Jet Non-Uniformity on the Lift of an Augmentor Wing 312
Today and the Future in Aircraft Wheel and Brake Development: J.P. Ruppe..... 209
Tong, David: An Evaluation of Large Space Platforms 279
Transonic Axisymmetric Bodies with Minimal Wave Drag: Y.Y. Chan, D.L. Mundie and D.J. Jones..... 231
12 GHz Broadcast-Satellite Planning in Region 2: K.E. Brown..... 288

V

Vaneless Radial Diffusers, Distinction Between Two Types of Self-Excited Gas Oscillations in: A.N. Abdelhamid and J. Bertrand 105

W

Wake Vortex Trajectories of Low Flying Spray Aircraft: R.H. Wickens..... 41
Weapon Development in Canada, An Example of — The CRV7 Weapon System: H.P. Nielsen 10
Wheel and Brake Development, Today and the Future in Aircraft: J.P. Ruppe 209
Wickens, R.H.: A Streamtube Concept for Lift —With Reference to the Maximum Size and Configuration of Aerial Spray... 134
Wickens, R.H.: A Technique for Simulating the Motion and Ground Effect of Aircraft Wake Vortices..... 129
Wickens, R.H.: Reduction of Aerodynamic Drag of External Spray Booms and Nozzles Used on DC-6 Aircraft..... 46
Wickens, R.H.: Wake Vortex Trajectories of Low Flying Spray Aircraft 41


C30
